ACADEMIC ALERTS

Faculty have the option of issuing academic warnings anytime during the semester. Warnings may be issued because of low test, quiz or lab scores, excessive absences, missing assignments, the need for tutoring, lack of effort, tardiness, or the danger of the student failing.

Students who receive warnings should discuss their progress with faculty and take necessary steps to address academic challenges. Students may also contact MWCC Academic Advising at 978-630-9109 or the MWCC Academic Support Center at 978-630-9333 for additional support.
