

## CHANGING COURSES

During the add/drop period, students may drop courses without academic or financial penalty. Students may also register for courses during the add/drop period, subject to seat availability and college policies. Students are encouraged to use Degree Works to select courses that apply to their program and seek out the assistance of an advisor to stay on track with degree requirements. Please reference the academic calendar (<https://mwcc.edu/academics/academic-calendar/>) for the specific dates of the add/drop period.
