ART 101. Introduction To Painting. 3 Credits.
This studio course familiarizes the non-art major with the art of painting in oils and/or acrylics. Students learn basic fundamentals of color mixing and applying paint while painting from still life set-ups, portrait models and other typical subject matter. Discussions and reproductions introduce students to relevant painters and their work and a general appreciation of the craft of painting. Some art materials must be purchased for this course. Not open to art majors. Prerequisite: None.

ART 103. Introduction To Sculpture. 3 Credits.
This studio course introduces principles of sculpture and three-dimensional design to the student with little or no previous art experience. The emphasis will be on learning to skillfully manipulate different materials and to develop an understanding of art concepts as they apply to the practice, viewing, and discussion of art. The student will gain an appreciation for three-dimensional work as he/she directly experiences the process inherent in creating art. A range of media will be used. Not open to art majors. Prerequisite: None.

ART 105. Introduction To Drawing. 3 Credits.
This course is designed as an introductory-level course for those with little or no previous experience in drawing. Its aim is to expose the student to a range of media and working approaches to the various problems of drawing. The task of learning to see will be met as a combination of close observation and spontaneous response to the media of drawing. In class, as well as out of class, drawings will be initiated by the students themselves. Subjects will include landscape, still life, interiors, portrait, and the clothed human figure. Prerequisite: None.

ART 109. Art History I. 3 Credits.
This course is a chronological survey of the visual arts of the Western World from prehistoric times to the Renaissance. The course presents significant sculpture, architecture, and paintings of this period through slides, films, textual reproductions, and actual museum pieces. Lectures include critical, visual, and technical analysis of these works, biographical sketches of contributing artists, and relevant cultural and historical details that influenced the art of these centuries. Works of art from non-Western cultures will also be studied. Prerequisites: ENG 098, FYE 101, RDG 098, (or placement). Spring.

ART 110. Art History II. 3 Credits.
This course is a chronological survey of the visual arts of the Western World from C.E. 1300 to 1950. The course presents significant sculpture, paintings, and architecture of these years through slides and textual reproductions. Lectures include critical, visual, and technical analysis of these works, biographical sketches of the contributing artists, and the relevant cultural and historical events and personages that influenced and were influenced by the art of these centuries. Chapters on Islamic, Asian, African, North & South American Art focus on issues of cultural diversity. Prerequisites: ENG 098, FYE 101, RDG 098, (or placement). Fall.

ART 212. Portfolio and Digital Tools. 1 Credit.
This capstone course provides the student with practical skills and knowledge essential in preparing for future education or a career in the visual arts, articulating their identity and place in the arts. Students will critique and assess accomplishments to develop a comprehensive portfolio of work. Students will focus on developing individual portfolios, researching and preparing application materials for bachelor's degree programs, creating an artist's statement and resume, and advancing written and oral communications skills. Students are introduced to digital tools necessary for success. Documenting work; use of a digital camera; introduction to Photoshop; and creating promotional materials will be presented. Required course for ART and LART major. Prerequisites: ART 263, ART 264, and ART 269. Spring.

ART 241. Watercolor Painting. 3 Credits.
This course explores the basic techniques of working in the medium of watercolors. Exercises using transparencies and opaque techniques will be assigned. Slides of historical works by masters of the medium will be screened and discussed. Prerequisites: ART 105 or ART 263.

ART 251. Two-Dimensional Design. 3 Credits.
Two-Dimensional Design presents the principles of expressive design on flat surfaces through directed activities in painting, drawing, collage, and digital imaging. Students practice the use of line, shape, color, value, and other design fundamentals. Lecture, critique, and discussion further engage students in the exploration of artwork from several cultures in discovering what constitutes good design. Students will need to buy most of the course materials. Prerequisites: ENG 098, FYE 101, RDG 098, (or placement); ART 263 is recommended.

ART 252. Three-Dimensional Design. 3 Credits.
This course provides students with the processes to create three-dimensional shapes. The first part of the course is a study of geometric and organic forms. By using materials such as cardboard, styrofoam, plaster, and clay, forms are constructed that explore the relationship of parts to the whole in their spatial context as the basis of good design. Additional problems stress the tectonic aspects of design and how they are used to create sculptural forms. An assigned portrait study in clay, along with procedures for plaster molding
and casting, will be completed by the end of the course. Artists and approaches will be introduced from western and non-western
perspectives. Prerequisites: ENG 098, FYE 101, RDG 098, (or placement). Fall.

ART 253. Painting I. 3 Credits.
Painting I offers basic instruction in oil and/or acrylic painting and is intended for art majors and other students with an art
to the relationship of light, color, form, and space; 2. improve their ability to translate a
three-dimensional experience onto a flat surface; and 3. expand their transfer portfolios. Outside of class, this course encourages the
development of more personal motifs in order to further explore painting as an expressive medium. Discussions and lectures acquaint
the students with the paintings and artists of varying cultures and times. Students must participate in an exhibit of work at semester's
end. Students are responsible for supplying most of the materials needed for this course. Prerequisite: ART 253 or permission of
division dean. Fall.

ART 254. Painting II. 3 Credits.
Painting II is a continuation of ART 253 Painting I. Students paint from the human figure, interior spaces, and the surrounding
landscape in an effort to 1. better understand the relationship of light, color, form, and space; 2. improve their ability to translate a
three-dimensional experience onto a flat surface; and 3. expand their transfer portfolios. Outside of class, this course encourages the
development of more personal motifs in order to further explore painting as an expressive medium. Discussions and lectures acquaint
the students with the paintings and artists of varying cultures and times. Students must participate in an exhibit of work at semester's
end. Students are responsible for supplying most of the materials needed for this course. Prerequisite: ART 253 or permission of
division dean. Fall.

ART 255. Drawing III. 3 Credits.
Painting III is for advanced students interested in pursuing their personal interests in oil painting. Emphasis is on the individual work
of the student, thematic development, and aesthetic considerations unique to the painting process. Painting III is recommended for
the student who is motivated, directed, and able to work independently. A small exhibition of work in the school Gallery is required. Prerequisites: ART 254 and permission of the division dean.

ART 256. Ceramics I. 3 Credits.
Students create functional and sculptural work in clay as they develop skills in hand-building methods (pinch, coil, drape, and slab)
and end with an introduction to the potter’s wheel. Work from Africa, indigenous Americans, and historical and contemporary
activities, along with ancient firing practices, will be presented. The course may include different clay bodies and glazes, as well
as firing the work in outdoor kilns and the electric or gas kilns. Individual expression will be encouraged, as the student gains an
appreciation for the history of ceramics and for clay as a unique medium. Outside reading assignments and keeping a sketchbook
throughout the semester will be required. Prerequisites: ENG 098, FYE 101, RDG 098 (or placement).

ART 257. Ceramics II. 3 Credits.
This course focuses on developing skills on the potter’s wheel to create functional forms (cylinders, bowls, jars, mugs, etc.) and hand-
building sculptural clay pieces of a large scale. Ceramic work from the Far East, the Mediterranean, Europe and work by historical
and contemporary ceramists will be presented. Individual expression will be encouraged as students visualize and build pieces that
challenge their skills. Different clay bodies, glazes, glaze applications, and decorative techniques will be explored. The course may
include firing in outdoor trash barrel kilns, a raku firing, or using the electric and gas kilns. Outside reading assignments and keeping a sketchbook throughout the semester will be required. Prerequisites: ENG 098, FYE 101, RDG 098 (or placement).

ART 258. Drawing I. 3 Credits.
Students will explore a wide range of media and working processes common to the art of drawing as well as the historical context
on which contemporary views of drawing are based. Assignments will center on the ability to translate objects in actual three-
dimensional space onto a flat two-dimensional surface as opposed to drawing from photographs. Learning to see will be a primary
focus of class work. All aspects of style and technique will be discussed or demonstrated. Drawing from the human figure will
be introduced. May include clothed and nude models. Artists and approaches will be introduced from western and non-western
perspectives. Prerequisites: ENG 098, FYE 101, RDG 098, (or placement).

ART 259. Drawing II. 3 Credits.
This course is aimed at developing the artistic areas that were begun in ART 263 Drawing I so that students can achieve an overall
confidence level with a range of different media and approaches. Areas of concentration will focus on composition, perspective, and
illusionary, as well as two-dimensional aspects of space. Artists and approaches will be introduced from western and non-western
perspectives. A significant amount of time will be spent developing drawings from the human figure from nude and clothed models.
Portfolio development in this area will be encouraged with critiques aimed at enhancement of individual drawing strengths. Assigned
problems beyond class time will focus on individually initiated work aimed at a clearer definition of the student's own goals in
drawing. Prerequisite: ART 263 or permission of division dean. Spring.
ART 269. Drawing III. 3 Credits.
This course is designed for the art student to develop advanced level drawings and to create work for a portfolio. The student should be capable of individually directed work in drawing and have completed all other drawing courses. Emphasis is on thematic development, the individual work of the student, and aesthetic considerations unique to the drawing process. Clothed and nude models may be used. Cutting a mat and preparing a work for exhibition will be presented. Prerequisite: ART 264. Fall.

ART 271. Sculpture I. 3 Credits.
The aim of this course is to teach sculptural working principles that hold true of good sculpture, whether from earlier traditions or more modern ones. The course is structured with assigned problems that will engage the student in aspects of the traditional figure study in clay using nude models, and assignments aimed at exploring the (object) aspect of form and the varying spatial aspects that form its context. Subtractive techniques will be introduced. A wide variety of sculptural examples from western and non-western cultures in prehistory or modern era will act as a source of sculptural precedent for individual initiatives in problem solving. The tectonic or building aspects of construction involving weight, mass, and durability will be put on par with the intellectual aspect of the creative process. Success in the course will depend on both. Prerequisites: ART 252 or permission of the division dean. Fall.

ART 272. Sculpture II. 3 Credits.
This course is structured so that students who have begun to develop skills in the sculptural building processes can practice and further refine these skills at the higher level with increased creative problem solving. More attention will be paid to work from the model. Problems will be given to expand the student's familiarity with a broader range of material and ideas. An option to learn subtractive techniques in wood and stone will be made available. Students will learn lost wax bronze casting procedures. Prerequisite: ART 271 or permission of the division dean. Spring.

ART 273. Sculpture III. 3 Credits.
This course is for the advanced student who is in pursuit of creating work for a portfolio, after completing all other course offerings in sculpture. Emphasis is on the individual work of the student, thematic development, and aesthetic considerations unique to the sculpture process. Recommended for the student who is motivated, directed, and able to work independently. Prerequisites: ART 272, and permission of the division dean.

ART 284. Ceramics III. 3 Credits.
This course is for the advanced student who is in pursuit of creating work for a portfolio, after completing all other course offerings in ceramics. The student is expected to create a thematic body of ceramic work and further develop their technical skills and conceptual abilities. Further exploration of clay bodies, glazes, kiln firings, and aesthetic considerations unique to the ceramic process will be presented. The student should have some previous knowledge of working with clay, understand methods of hand building, and have basic skills using the potter's wheel. The student is expected to be self-motivated, able to work independently, and to have specific goals. In addition to creating the body of work in individual proposal that is developed with the instructor, the student will complete an assignment on glaze chemistry, and give an oral presentation on his/her research of a significant potter, ceramist, or sculptor. Prerequisites: ART 260 and permission of the division dean.

ART 285. Ceramics IV. 3 Credits.
This course is a continuation of ART 284 Ceramics III and is designed for the art student interested in further advancing skills for working with clay and creating advanced level work for a professional or transfer portfolio. The student should be capable of individually directed work and have completed all other ceramic courses. Further exploration of clay bodies, glazes, glaze chemistry, kiln firings, and aesthetic considerations unique to the ceramic process will be presented. The course will include research, oral presentations, a glaze chemistry project relevant to the student's own work and critiques. Emphasis will be on the individual work of the student. Prerequisites: ART 284 and permission of the division dean.

ART 286. Printmaking I. 3 Credits.
An introduction to printmaking that may include monotypes, relief, and intaglio. Thematic development and individual expression will be encouraged as the student develops a portfolio of monotypes, drypoints, etchings, and linocuts. The student will learn the process of plate preparation, applying a ground to the plate; the proper use of the press and care of prints will be presented. Safer approaches to printmaking will be covered. Prerequisite: ART 105, ART 113, or ART 263 or permission of division dean.

ART 287. Printmaking II. 3 Credits.
The student will focus on intaglio printmaking and the use of color or multiple blocks in relief printmaking. Different grounds, aquatint, etching a plate, registration, and the printing of a consistent edition of prints will be presented. Individual expression and aesthetic considerations will be encouraged in the development and printing of the student's original image. Traditional and contemporary innovations in printmaking will be emphasized. Prerequisite: ART 286 or permission of division dean.
